QUALITY POLICY

Cambridge Sensotec Ltd (the 'Organisation') aims to provide defect free products and service to its customers on time and within budget. We operate a Quality Management System that is certified to BS EN ISO 9001: 2015 standards including aspects specific to the provision of design, manufacture, sales and distribution of gas analysis and leak detection equipment.

The management of the Organisation are committed to:

- 1. Develop and improve the Quality Management System.
- 2. Continually improve the effectiveness of the Quality Management System.
- 3. The enhancement of customer satisfaction.

The management of the Organisation has a continuing commitment to:

- 1. Ensure that customer needs and expectations are determined and fulfilled with the aim of achieving customer satisfaction.
- 2. Communicate throughout the Organisation the importance of meeting customer needs and all relevant statutory and regulatory requirements.
- 3. Establish the Quality Policy and its objectives.
- 4. Ensure that the Management Reviews set and review the quality objectives, and reports on the Internal Audit results as a means of monitoring and measuring the processes and the effectiveness of the Quality Management System.
- 5. Ensure the availability of resources.

The structure of the Quality Management System is defined in our Quality Manual. All personnel understand the requirements of this Quality Policy and abide with the contents of the Quality Manual. The Organisation complies with all relevant statutory and regulatory requirements. The Organisation constantly monitors its quality performance and implements improvements when appropriate.

This Quality Policy is reviewed regularly to ensure its continuing suitability. Copies of the Quality Policy are made available to all members of staff. Copies of the minutes of Management Reviews, or extracts thereof, are provided to individual members of staff in accordance with their role and responsibilities as a means of communicating the effectiveness of the Quality Management System.
